Document No. 38.

OFFICE OF THE QUARTERMASTER GENERAL.

WAR DEPARTMENT, *May 11, 1897.*

These regulations and decisions pertaining to the Uniform of the Army of the United States, are published for the information and guidance of all concerned.

UNIFORM OF THE UNITED STATES ARMY.

OFFICERS.

FULL DRESS COATS.*

1. A double-breasted *frock* coat of dark-blue cloth, the skirt to extend from one-half to three-fourths the distance from the hip joint to the bend of the knee.

This coat will be worn on all dress occasions, such as reviews, inspections, dress parades, courts-martial, courts of inquiry, and retiring boards, and upon guards and drills when prescribed by the commanding officer; except that,

* WHEN FULL DRESS IS PROPER AT INSPECTION.—The form of words used in paragraph 1 of the foregoing Regulations, in so far as it prescribes the full dress as the uniform to be worn at inspections, must be interpreted as requiring such uniform only at those inspections which, by the officer directing them, are intended to be occasions of ceremony. Not all inspections are occasions of ceremony. The object of some may be solely to enable a commanding officer to critically examine the condition of his command and its equipments—in short, its efficiency for service—for all which that officer is responsible to higher authority. For this purpose the commanding officer of the organization, whether it be a company, battalion, or more complex command, must have authority to prescribe any uniform and equipment (full dress, undress, equipped for field service, etc.) that may be contemplated by the Regulations for service in garrison or in the field. Company commanders should, therefore, not be restrained in this respect in the exercise of a sound discretion. Again, the command—whether it be a company or other organization—may be paraded for inspection by a superior commander or by his staff officer. Such an occasion will, presumptively, be one of ceremony, and the commanding officer will, therefore, *in the absence of instructions from the superior commander, or from his staff officer deputed to make the inspection*, parade the troops in full-dress uniform as contemplated by the Regulations for a ceremonial occasion. But even in the case of inspections by a superior commander, or by a staff officer deputed to perform that duty, such officer may prescribe any regulation uniform and equipment according to the special object which he has in view. In general, therefore, “full dress” will be the *obligatory* uniform for an inspection, whenever the officer conducting it desires to make it, in part or in whole, an occasion of ceremony.

when rendered necessary by the state of the weather, the president of a court-martial, court of inquiry, or retiring board may authorize undress uniform to be worn by the members of the court or board at their sittings. This coat may also be worn with shoulder straps, when not on armed duty.

Provided, that when a particular coat or vestment is required by the church to which the chaplain belongs, he may wear such coat or vestment while conducting religious services.
